

Save your tooth Most of your permanent teeth may be saved if you know what to do after a blow to the mouth

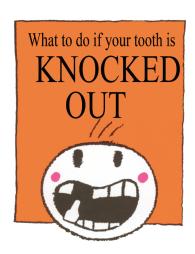

The piece can be glued on

For this to be possible, seek attention immediately from a dentist

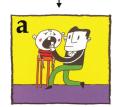

Find the tooth

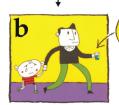

Hold it by the crown

(plug the sink) Rinse in cold tap water

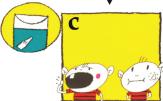

Put the tooth back in its place

FOLLOW ONE OF THESE ALTERNATIVES

Place the tooth in a cup of milk or saline

When milk is not available, place the tooth in the mouth between the cheeks and gums
